

COMMUNITY SCHOOLS ART CONTEST

Celebrate Drinking Water Week 2021

There When You Need It

THIS YEAR'S THEME

Water plays a vital role in your daily life. There are miles of pipe beneath your feet that carry it to and from our homes, schools, and businesses. Hundreds of men and women work around the clock each day to make sure that it's there when you need it.

STEP 1: BRAINSTORM IDEAS

1. Discuss the annual theme.
2. Consider the following questions:
 - “How do I use water from the time I wake up until the time I go to sleep?”
 - “Did you ever stop and think about the miles of water and sewer pipe deep beneath your feet?”
 - “What about the people who take care of the pipes?”
3. What does the theme and questions make you think of?

STEP 2: CREATE

Start painting! Use the 4' x 4' plywood sheet, paint, and paintbrushes provided by Mount Pleasant Waterworks to bring your thoughts to life. Be creative, have fun, and show us how water is there when you need it.

STEP 3: SUBMIT

Don't forget to include your team entry name and school name on the back of the board. Please use a permanent marker so it does not wash off. You may find a creative way to include your school name on the painting. Please also include the completed contact information form we provided so we can reach you with any questions..

ENTRY DEADLINE

Friday, April 30

To schedule a pick-up date, please call us no later than April 26. To deliver on your own, please come to 1619 Rifle Range Road, M-F, 9 AM - 5 PM
